

RAXSAFE® TRAINING PROGRAM

Warehouse Safety & Risk Awareness Training

Presented by S-MARK, a division of SEIZMIC

What Is RAXSAFE® ?

RaxSafe® is S-MARK's live warehouse safety training program designed for warehouse managers and staff responsible for day-to-day operations. This course provides a practical understanding of warehouse safety, common hazards, and how to maintain a safe working environment.

Led by a Certified Inspector, RaxSafe® combines real-world experience with on-site instruction to help teams identify risks, improve safety practices, and maintain the integrity of stored materials and systems.

What you'll learn:

- Identify common warehouse hazards and unsafe conditions
- Understand best practices for safe warehouse operations
- Learn how to properly maintain stored materials and systems
- Recognize early signs of damage and risk
- Improve overall safety awareness across your team

Ways to Learn:

- Live, instructor-led training at your facility
- Led by a Certified Inspector (Roy Farrow)
- On-site walkthroughs with real-world examples
- Interactive discussion and Q&A tailored to your operation

Contact our team today to register and make rack safety a priority!
